NOUVEAU-BRUNSWICK

Le Nouveau-Brunswick jouit d'une réputation mondiale comme fournisseur régulier de pommes de terre de semence et de qualité supérieure exemptes de virus. Il a acquis cette réputation grâce aux efforts réunis des producteurs, des représentants de l'industrie ainsi que des gouvernements provincial et fédéral.

La Loi sur d'éradication des maladies des pommes de terre régit la suppression de plusieurs maladies déterminées de la pomme de terre dans la province. Pour toute production, même les jardins, il faut utiliser des semences de catégorie Certifiée ou d'une qualité supérieure. Il se peut qu'une inspection des installations du producteur ainsi qu'une désinfection du matériel et des entrepôts soient nécessaires pour assurer l'éradication des maladies.

Certification des Pommes de Terre de Semence au Canada

La Direction de la protection des végétaux d'Agriculture Canadaest responsable de l'inspection et de la certification des pommes de terre de semence au Canada. Le programme à nombre restreint de générations commence avec des semences de la catégorie Pré-Élite obtenues à partir de tubercules sains cultivés en serre ou avec les transplants qui sont plantés directement en plein champ. Les semences issues de cette première génération progressent d'une catégorie ou plus chaque année lorsqu'elles répondent aux normes d'inspection établies pour cette catégorie.
